A mischievous bot challenges the 'Humans' to the ultimate test of teamwork, and SynergyK begins! Guided by this cheeky AI Robot facilitator, teams embark on a thrilling journey of retro minigame challenges loved by all. Interactions with the game are done via retro electronic components such as sliders, flashing buttons and joysticks, creating a unique user experience.

Synergyk goes beyond entertainment by providing comprehensive team reports that analyze scores from each minigame, offering valuable feedback on team collaboration and problem-solving. Empowering managers with insights into their team's strengths and weaknesses, SynergyK creates a lasting impact, making it a worthwhile investment for those seeking a level playing field where teamwork is the ultimate key to victory!
